**DETAILED ACTION - ALLOWANCE**

Claims 8, 9, 11, 13-17, 19, 27-34, 36-40 and 43 are allowed in light of amendments/arguments filed by applicant on May 3, 2005, and on June 2, 2005. Claims 1-7, 10, 12, 18, 20-26, 35, 41, 42 and 44 have all been cancelled by applicant. All pending claims thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance follows below.

***Reasons for Allowance***

The instant invention provides a variable optical delay system including a novel refractive index switching system in which a delay is imparted to an optical signal by a fluid, within a fluid holding region of the system; the fluid being selected from the group consisting of air, and one or more refractive liquids as recited, *inter alia*, in each of the instant independent claims (Claim 8, Line 4; Claim 27, Lines 4-5; Claim 34, Line 5). The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

***Other Remarks/Information***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
